MEMORANDUM FOR THE RECORD:

SUBJECT: Coordination of OO Collection Capability with
FI Collection

1. George Carey called me today saying that he felt that if OO had lists of IPC requirements they could demonstrate an ability on their part to collect against some of those requirements which might otherwise be either impossible or difficult to collect clandestinely.

2. I suggested that DD/I interests in the IPC are represented by OCD insofar as the coordination of collection requirements was concerned. I recommended that he call (at his level) Jean Moreau (in view of James Andrews pending departure). Harry James is the OCD representative to IPC. Ray Kline represents the DDI area on the IPC from the point of view of substantive interest.

3. No IPC requirements (long range) should be drawn if collectable by "easier" overt means. No ad hoc requirements are levied unless overt means cannot fulfill the requirement.

4. I asked both George Carey and Jean Moreau to let me know the outcome as this is another example of a question which is susceptible to settlement by existing means rather than initial referral to an inter-agency body.
